HEKA

HEKA is driven by a relentless pursuit to help our customers achieve success. We are a value-added partner that brings expertise in the realms of Software, Electrical, Aerospace, Systems, and Mechanical Engineering. Our knowledge of technology and the processes of engineering design, development, verification, and validation, coupled with our customers' expertise in their respective fields, creates a powerful, winning team. Every HEKA customer is viewed as a long-term partner who jointly can accomplish more, and our success is tied to your success.

.

Core Competencies

Design, Development, and IV&V Engineering Services
Electronics Engineering
Software Engineering
Mechanical Engineering
Aerospace Engineering
Systems Engineering
Cloud Compute & Data Analysis
Machine Learning and AI
Reverse Engineering & Quick turn Prototyping
DO178 – DO254

Company Snapshot

NAICS: 541330, 541511, 541512, 541513, 541519, 541690, 541990, 336411, 336412, 541715
DUNS: 081186668
CAGE: 83CF3
SBA: Small Business
Quality: AS9100: ISO 9001
Accounting: DCAA, DCMA Complaint
Cyber: NIST Compliant

Past Performances

UAS Design and Subsystems
Safety Critical Flight Control and Avionics
Spectrometers
C5ISR
Digital Radios & Antennas
Electric Motor Controls

Technology Verticals

Unmanned & Autonomous Systems
C5ISR
Digital Radios and AntennasEmbedded
Electronics Cloud Integration
AI & Edge Computing
Cloud Computing and Data Analytics
Edge Compute and AI
