COMPANY DISCOVERY

Search every active company in the federal market matching your requirements and reduce the time and expense to discover and build new prime contractor relationships.

COMPANY VETTING

Vet teaming partners by their company profile via size category, capabilities, past performance and more, reducing the time it takes to find valuable teaming partners and grow your small business.

CRM TRACKING

Easily track every connection turned relationship and add in your current connections for automated tracking and built-in data updates.

COMPANY PAGE

Send companies to your TeamingPro company page. Once you upload your capability statement, this in addition to your other company data will showcase your company and give your sector of the federal market a quick way to view and then connect with your company.

Teaming Tools for Subcontractors: Connecting Small Businesses with Prime Contractors in the Federal Services Market

The image displays two screenshots of the TeamingPro web application. The top screenshot shows the 'Company Search' interface with various filters like NAICS, SIC, and Contract Wins. The bottom screenshot shows a detailed 'Company Profile' for 'WESTERN REFRIGERATION CO., INC.' with tabs for General Company Information, Specific Information, and Contract Wins Information.
