

TeamingPro

Affiliate Program

TeamingPro is looking to expand our membership roles while making it profitable for our partners.

Affiliate partners receive shareable Promo Codes offering discounts on our plans, while we pay commissions on sales recorded through those codes.

Our main customers are small to large sized federal contracting companies paying either a monthly or yearly fee to research opportunities, and access other companies on our platform for strategic teaming.

- We sell three plans offering both monthly or yearly pricing with discounts on additional seats.
- Commissions are on an upward scale based on revenue collected starting at 20%.
- Affiliate payments are tracked on the affiliate's central dashboard and payable weekly.

We offer training and support for our affiliate partners, helping them navigate the platform and their sales.

- Demographic: Active federal contracting companies.
- Supplied media kit with video training support.
- Trial platform access.

If your line of business has you interacting with federal contracting companies, then we're serving the same market and can add value together. Our teaming network and easy to use platform make TeamingPro a needed tool and easy sale.
